

INFINITY

Managing Director – Infinity Technology Holdings Ltd

“We wanted to generate more leads with high-level DMs in large IT companies and Inspired made it really easy for us. They took care of everything from the introduction through to qualifying interest and scheduling calls with decision-makers.

After using Inspired’s services for just a few months, we saw a big difference in sales activity compared to the previous quarter and the results have been consistent, not just random peaks and drops in the figures. If you’re looking for a lead generation company that’s hassle-free and gets real results, I highly recommend Inspired.”
