

Co-Founder & CEO – YetiTablet

“We appointed Inspired to generate face-to-face appointments for the re-sellers of our care specialised android tablet. The tablet is for senior care and retirement homes and is also an assistive tool for people with Autism and other disabilities, which is what we wanted to highlight in the campaign.

Inspired’s knowledge and experience within the care and technology sectors made this a dream. The opportunities we are receiving are fully qualified to our requirements and we saw a significant Return on Investment from our pilot campaign.

I would definitely recommend Inspired to organisations that are looking to increase their sales opportunities and build a sustainable sales pipeline.”
